EIGHTY CLUB DINNER.

A Great Banquet Held at Willis' Rooms, London--An Event Long Looked For.

Mr. Parnell and Edward Blake the Club's Guests--Converts Increasing Rapidly.

The London correspondent of the Toronto *Globe* sends that journal a full account of the dinner given by the Eighty Club at Willis' Rooms, London, a few days since. Next to the guest of the evening, Mr. Parnell, sat the Hon. Edward Blake, who was also a guest of the Club. Mr. Haldane, the Chairman, in opening the proceedings read a telegram from Dublin from a public meeting in support of the candidature of Mr. Thomas Dickson, an Ulster Protestant, who hopes to enter the Irish Parliamentary party in the place of the lamented E. Dwyer Gray, late M. P. for the St. Stephen's Green division of Dublin. Another Ulster Protestant, a Mr. Knox, seconded a vote of thanks to Mr. Parnell.

Mr. Parnell devoted a good deal of his speech to Lord Carnarvon, and the correspondence which he handed to the press is very interesting. He lightly touched upon the Papal circular (which he very properly left to the consideration of his Catholic colleagues). He said more about the Plan of Campaign, against which and Mr. Dillon—one of the originators of the Plan and the man who more than any one else has devoted himself to the interests of the tenants—Rome has plainly levelled this last attack. Mr. Parnell said the Plan of Campaign "has undoubtedly been most successful as regards the agrarian question in Ireland. It has saved thousands and thousands of tenants from eviction. It has prevented enormous suffering in Ireland. It has, in fact, pacified the country;" but if he had been in a position to advise about the Plan of Campaign he would have advised against it because he thought it might have a bad effect on the political situation. He continued: "I believe that in all probability in a short while the Plan of Campaign would, in the natural course, have been gradually superseded by a method of agrarian agitation which I have for some time been engaged in maturing, and which would, I think, have been free from those political defects incidental to the Plan of Campaign, and which would have absolutely corresponded in every respect with the system of organization known as trades unionism in this country. But we shall now have to wait. Just as the government struck a little too soon against Mr. Dillon at the end of 1886, so they have induced the ecclesiastical authorities at Rome to strike against him now, and I certainly should think that it is not my business to interfere with any line that Mr. Dillon and Mr. O'Brien and the other Catholics who have been engaged in this matter may think it right to take in vindicating their political freedom against the claim which has been put forward from this distant country in reference to the affairs of Ireland. When the Government strikes at an Irishman, our rule is to fight for him, whether he is right or wrong—and when the Government does as it has done now, when having failed in its coercion it calls in the aid of Rome, I see no reason why we should alter our conduct. Now I wish to speak to you for a moment on this question of right of combination. I regard the right of combination, the right of free speech, the freedom of the press, and the right of public meeting, as vital for the securing of our liberties in Ireland. I do not know, if these rights are not only denied, as they are to-day, but if they should be successfully taken away from us, what room there is for any constitutional movement—and I consider it the duty of the Irish people and of their leaders to suffer anything and to dare anything, within the law, in the maintenance of those rights. Imprisonment, loss of fortune, death itself, is not too great a price to give for the maintenance of this charge. In this country you have shown that you know how to suffer and to die for these things—and if the Irish people are worthy of freedom they will suffer and endure all things in defence of these principles. Throughout his speech Mr. Parnell was loudly applauded.

The correspondent adds that English law was made by Parliaments of selfish landowners, and no redress was ever got until pressure from outside forced concessions. Just so has it been in Ireland. The agitation of 1880 produced the Land Bill of 1881, and Mr. Dillon's Plan of Campaign produced the reduction of the judicial rents, and the admission of the leaseholders to the Land Courts. These concessions were wrung from the present Government after they had again and again declared that they would never admit the leaseholders and never interfere with judicial rents! And to-day the man who has gained all this is being tried as "one of Balfour's criminals" at Mell, in the County of Louth; while Mr. O'Brien, who, next to Mr. Dillon, has worked hardest for Ireland, has just been sentenced to three months' imprisonment.

Mr. Gladstone, in his speech to the Non-conformist ministers, said, "It ought to be well considered who were the real authors of the Plan of Campaign. I say boldly that the real authors of the Plan of Campaign are the present Government." And he proceeded to show how by refusing the just demands of the Irish members they had brought about a crisis in Ireland in the autumn of 1886. Mr. Gladstone Vindicated Mr. Dillon's action in the following words: "Mr. Dillon is unquestionably a man of talent and eloquence. But what is more, he is a man admitted by all to be a man of character and a man of honor." "In England great value is attached to the law," "but justice is the essence of law, and no human law can derogate from the divine law, which says 'give every man his own.'" In Ireland the rents were raised on the tenants' improvements, therefore the tenants and not the landlords were robbed. And yet when the tenants in Ireland combine on any estate, there is a great deal of nonsense talked about resisting the law. Indeed some English politicians go on about "the sacredness of British law," as if England had a private Mount Sinai of her own, whereas the truth is, English law had very little that was sacred about it, but was for centuries a mass of iniquity, and noble-minded Englishmen of the present day are the first to tell you so. What would they say, for instance, about the law of property in Negro slaves?

PERSONAL.

Mr R Collister, hull inspector, returned from Vancouver last night.

Dr Howard, of Los Angeles, will leave for home on Monday morning.

Mr A P Lindley, well-known in Victoria, arrived from the Sound last night.

Mr Ben Young and son were passengers from the Sound last night by the Olympia.

Mr E L Drewry, MPP, and a prominent brewer of Winnipeg, is on his way to Victoria.

Judge Harrison was amongst the arrivals from the interior of the mainland yesterday.

The Hon Robert and Mrs Dunsmuir are expected back from San Francisco next Thursday.

The Hon T B Humphreys took a trip on the Island railway this morning. He will rusticate for a short time near Goldstream.

Mr E G Prior, M P, is expected home Sunday. He remained over a day at Kamloops where he has a branch establishment.

Mr J H Cambie, a prominent railway engineer in connection with construction on the CPR was amongst the mainland arrivals last night.

Mrs R B Angus and Miss Elsie Angus of Montreal were passengers from the east yesterday. They were met at the landing by their friends in this city.

At the Clarence:—Mark Bohn, New York; O J Mulkey, Tacoma; Capt Hutton and wife, London, Eng; R Jones, Vancouver; F Loftus, Port Townsend.

The father of the Hon C E Foster, Minister of Finance for Canada is very ill. The Minister has left Ottawa for his father's bedside to which he was summoned by telegraph.

Mr J G Macdonald, the well known contractor from Nova Scotia, who built the jail in this city and many buildings in New Westminster and Vancouver, has again returned to the province.

Rev E Matheson, lately of Lethbridge, NWT, is a guest at the Clarence. Mr. Matheson is a native of the Red River country and has seen much of the vast land of illimitable possibilities.

Mr Alex Dunsmuir, of Departure Bay, and Mr Young were in Seattle on Thursday examining the coal bunkers of the Oregon Improvement Company. A similar incline will be erected at the Comox mines.

At the Driard:—Louis Rosenfeld, N Bichard, Chemainus; Marcus Smith, Ottawa; J L Bliss, Tacoma; B Young and son, San Francisco; W Georgeson, Winnipeg; A Harris Montreal; A Fader, A Booth, Vancouver.

Registered at the Occidental:—F J Sheward, A Rothschild, Vancouver; R Robinson, F R Neale, England; G Edmondson, Liverpool, England; Mrs Robson, Mrs O'Bennett; Manye Island; James Holmes, T Keirrans and wife, Seattle; H S Rowling, Jno McDougall, Mrs and Miss White, Vancouver.

George Farrow, of this city, passed his graduating examination at Santa Clara College last week. He is a Bachelor of Science of the college. George is the youngest graduate that ever passed at that institution out of 200, being only seventeen years of age. The young man will arrive in this city in a few days.

Mr. Marcus Smith, the veteran Canadian engineer is at present at the Driard. Mr Smith has many friends in this province who are delighted to see him looking so well and so hearty and vigorous, notwithstanding the hard work he has gone through and the privations he had to endure in crossing the continent, long before the the days of the Canadian or Northern Pacific Railways.

Mr D Robson, who has had charge of the *Columbian* newspaper, New Westminster, for several years has resigned his position. Mr. Robson is a good all-round newspaper man, a sharp, crisp, vigorous writer, thoroughly sincere and conscientious in his beliefs and fearless in giving expression to his views. He carries with him from the editorial chair of the *Columbian* the best wishes of his fellow journalists in this province for his future welfare and prosperity.

Mr W Morrison, of Exeter, Ont, is in the city. This gentleman is manager of the Exeter Salt Company. He is also an experienced driller for either oil, salt or water having done much in that line of business in Western Ontario and in Ohio and Pennsylvania. He is about to undertake a test to be made in the vicinity of New Westminster or Vancouver. The bore to be made by him will go down some 2,500 feet. A thorough test well will be sunk. It is believed that crude petroleum and salt exist there.

Mr. E. Crow Baker, M P, arrived home from Ottawa on Friday night, looking well and evidently none the worse of his sessional work or his trip across the continent. It will now be in order for Mr. Baker to say what the government purposes doing in the matter of a subsidy to a line of mail steamers from Victoria to San Francisco. Sir John says the terms of union will be carried out to the letter. Well, we shall see whether or not "old to-morrow" is as good as his word. "Sir John's men" say he will do as he promised.

Mr G S Brown and wife, father and mother to Messrs R A, Percy R, G H and W B Brown of this city, arrived from Halifax, N S, last night on a visit to their children in this city. It was some 16 to 20 years since many of the family saw their parents last. The meeting as might be expected was an affecting one. The aged couple stood the long journey very well. They are the guests of their son Mr R A Brown of the *Standard*. In his early days Mr Brown was a resident of Toronto then known as Little York. These were the days of William Lyon Mackenzie, Louis Joseph Papineau and other early pioneers who struggled for responsible government and the liberties of the people. He afterwards returned to the land of his nativity, Nova Scotia, where he has resided since.

Mr and Mrs W F McCulloch and family left this morning for Spokane Falls where they will reside in future. Mr McCulloch is an early pioneer and possibly is the prince of prospectors for few men have so thoroughly traversed the interior of this province as he has done. In the early days he was the discoverer of McCulloch's Creek in the Big Bend country. Later on he discovered the famous anthracite coal beds near Banff, which are now turning out to be so very valuable. He is also interested in many mining claims throughout the province. He is of the opinion that Eastern Washington Territory, Idaho and Montana offer better inducements than does British Columbia for men of his stamp and there he has gone to reside. Mr and Mrs McCulloch had many friends in Victoria and throughout the province who regret their departure from our midst, but who will rejoice to hear of their prosperity beyond the borders. They are a deserving family.

GOLDWIN SMITH

Writes a Letter to the Electors of Manitoba and Advises Them How to Vote.

Prof. Goldwin Smith's letter to the electors of Manitoba appears in the Winnipeg *Sun* of last Tuesday. He urges the electors not to overlook the question of unrestricted reciprocity which he deems to be of great importance with the view to strengthening the hands of our American allies in the movement that we should be able to point to satisfactory proofs of its progress in Canada. The resolution of the interprovincial conference in favor of the extension of trade with the United States brings the subject clearly within the range of legitimate discussion at a provincial election, he concludes. The Professor goes on to say that the people of that portion of Canada have won the liberty of building railways to the frontier; now they want the liberty of shipping by those roads. He dwells at considerable length on the wall of a tariff now existing between the two countries, and asserts that once these are abolished a large trade will spring up between the United States and Canada.

Concerning the question of reciprocity, the Professor observes that it was voted down at Ottawa by the same docile majority which the session before had voted up railway monopoly, declaring it, as it now declares commercial monopoly, essential to the integrity of the nation. But the last five bye elections have gone in favor of reciprocity, and two or three of them have been actually won under that flag. The manifestation of opinion in these parts continues satisfactory and strong. Our people, and notably the farmers, are, it is true, deeply enslaved to political party, of the objects and principles of which they can themselves give no rational account, and a very strong and a very long pull is required to draw them out of their party lines. But there is a margin of men who more or less think for themselves, and who will not forever sacrifice, for a senseless Shibboleth their own bread and the bread of their children. Of the Provincial Legislatures, all except those of Prince Edward Island and British Columbia are now in our favor. On the side of the Americans everything looks well. Of course the sixty millions are not so sensible of the need of an extended market as the five millions; but the interest in the subject is visibly growing, nor is it confined to the States on our border. Mr. Wiman gave the other day a long list of Boards of Trade in different parts of the Union which had declared in favor of the movement. Hitherto there has been no pronounced opposition, though there are in the United States, as in Canada, interests not identical with the common weal, from which opposition is not unlikely in the end to come. Mr. Hitt's resolution, authorizing the president to confer with us on Commercial Union, has, as your readers are aware, been adopted by a committee of the House of Representatives on foreign affairs, and its submission to the house is deferred only that it may not become entangled with the party contest now raging over the tariff bill. The presidential election will of course for the present absorb everything else, but when that is over I look hopefully for a friendly overture from the American Government. The Ottawa Government and its majority will, it may be presumed, decline to overture if they dare. Whether they will dare must depend on the attitude of the Canadian people, and for that reason it is highly desirable that the verdict of Manitoba should be pronounced.

New Westminster News.

New Westmister, June 2—It is stated that negotiations are in progress in relation to the New Westminster Southern projected railway and that the prospects are favorable for arrangements being shortly arrived at in the matter that will be satisfactory to New Westminster.

The water in the Fraser is higher to-day than it was at any time during last season. It is still rising. Large quantities of drift is floating down and salmon is scarce in the river.

The mail carrier between this city and Vancouver, while on his journey on horseback this morning was met by a man on the road who stopped the horse and threatened the rider with violence. The rider, however, (a boy) managed to get out of the clutches of the highwayman and beat a speedy retreat back to this city.

T. F. Sinclair, the contractor of the Kootenay Lake and Columbia River Canal, has completed all arrangements for the work and proceeds at once to commence operations.

Newspaper Reports of Law Cases.

W. Hett's letter in this morning's *Colonist*, pointing out the incorrectness of a report of proceedings in the cases of Findlay & Co. vs. Dirrell, and Sayward vs. Findlay & Co., which appeared in that paper, draws attention to the necessity which exists for persons interested in litigation exercising especial care and honesty in furnishing information to the press respecting legal proceedings. No newspaper willingly allows itself to be used as an instrument for creating a prejudice for or against any party to an action, but editors are often compelled to rely upon the information afforded by solicitors in the case.

PROVINCIAL COURT.

(Before E. Johnson, Q. C., S. M.)

At 3 o'clock this afternoon 15 of the crew of the ship Silverdale were arraigned in the Provincial Court on a charge of refusing duty at sea. Mr. Theo. Davie appeared for the prosecution. Mr. Taylor defended the prisoners. Capt. Robert Morton was giving his evidence as we go to press.

Nanaimo Booming.

The Black Diamond city is at present booming. The hum of the carpenter's saw and the clink of his hammer is to be heard in every direction. There are no less than forty buildings at present in course of erection in various parts of the city. These range from the humble cabin to palatial residences.

The costliest string of pearls in America belongs to a New York lady and cost $51,000.

ANOTHER MEMBER HEARD FROM.

Another constituency's representative in the Provincial Assembly has been heard from. On this occasion it is Mr. ROBERT JOHN who proclaims to the world that he has faithfully, diligently and well represented himself for the last six years. The organ of the government announces that Mr. JOHN has resigned his seat to assume the office of governor of the Provincial jail in the north end of the city. It is known that Mr. JOHN was dissatisfied with his attitude towards the government for some time back. Not having received the appointment of Minister of Finance, he began to show his political teeth. Fearing his desertion of the ministerial wig-wam, thus creating a feeling in the district against the Government, it was deemed prudent to shelve him in the jail. But before the appointment could be gazetted it was deemed advisable that he should go through the farce of resigning his seat. That he evidently has done; so at least the organ says. It is but a repetition of the old and oft told story in this city and vicinity of putting forward his own claim to an office of emolument under the Crown rather than recommending a friend for the position. Entering either the Dominion or Provincial Legislatures now has apparently degenerated into a training school for shelving of servile hacks. The political bone yard of this province is no exception to that of the other provinces. Nevertheless it is a vicious practice and should be stamped out by all governments declining to recognize any claim made by a representative of the people on his own behalf to any office of emolument under the Crown. It is a practice that is growing and must of necessity lead to a sinking of that independence of action which is so necessary to an earnest, honest representative. We think Mr. JOHN will make a good officer. His friends claim for him many of the qualities necessary to make him a success as a Jail Governor.

Already the organ trots out Mr. JAMES TOLMIE, of Cloverdale, as a candidate for the vacancy in the district created by the retirement of Mr. JOHN. The cards apparently have been cut specially to suit the deal. The writ will be issued "forthwith," or as soon as the Government thinks itself safe in doing so to preserve its hold upon the constituency. Mr. TOLMIE can rest assured that he will not be the only candidate in the field, for already the names of three or four gentlemen are canvassed, any one of whom would make an excellent representative. Electors will do well to be on their guard against making any pledges or giving any promises until it is definitely known who the candidates are to be.

CABINET REPRESENTATION.

The Toronto *Empire* has come to the conclusion that it will not surprise many to find the western section of the Dominion putting forth its claims for representation in the Cabinet. It refers to a case which will strike most people as a strong one, although put mainly from a party point of view. Manitoba, British Columbia and the Territories certainly do send a solid phalanx of fourteen to sustain the Government, and this is a point which no Government can afford to overlook. The claim to representation will appear still stronger when the important interests—political, commercial and otherwise—west of Lake Superior are considered. The vast extent of territory, the Government's large property in lands, the wonderful resources, developed and undeveloped, of that vast and great country, the necessity that exists for securing the fullest and most reliable information regarding the growth and development and wants of this enormous area and its population, are all arguments in support of the proposition to give the western provinces and territories satisfactory representation in the Cabinet. Since the death of Hon. THOMAS WHITE, who was so very thoroughly informed on Northwest matters and whose sound judgment was of such especial service to the Government in difficult circumstances, the Government will feel more than ever disposed to give weight to the representations which come to them from that quarter, and which point to the propriety of selecting for a Cabinet position some one who has made a study of that western country. In connection with the vacancy the name of Hon. EDGAR DEWDNEY, the present Lieutenant-Governor of the Territories is mentioned as a successor to the Hon. THOMAS WHITE. It is known that whatever influence can be brought to bear in his favor by Lady MACDONALD will be done, for she and Mrs. DEWDNEY are the warmest of personal friends. Those knowing His Honor assert that he is no more gratified for the past than would be a Kamtskatka Siwash. The Dominion lands commissioner at Winnipeg, Mr. H. H. SMITH, is also mentioned. This gentleman is a capital executive officer, knows the country well, and is familiar with its requirements and in every way qualified to assume the duties of the Department of the Interior. A seat can be secured for him by the shelving some of the present representatives, many of whom are no doubt like their fellow members from this province representing themselves rather than their constituents.

HON. EDWARD BLAKE.

The London *Star*, edited by Mr. T. P. O'CONNOR, M.P., thus refers to a prominent Canadian to the manor born who was present at the Eighty club dinner in the British metropolis a few evenings since: "By the side of Mr. Parnell sat a gentleman with a strong, striking, picturesque face. The jaw was large, square and firm, the mouth was close and tight, almost after the manner of Count MOLTKE's; and though he wore spectacles, the eyes of this visitor, it could be seen, were keen and penetrating as well as kind. This guest was Mr. BLAKE, the leader of the Liberal party in Canada. Mr. BLAKE has a reputation that any politician of any country might envy. He stands first in the Canadian Parliament as an orator and a thinker; but he stands in equal eminence for incorruptible integrity. This is a reputation the more valuable because it stands in such striking contrast with the greed of so many of Mr. BLAKE's political opponents. The feeling towards Mr. BLAKE by his friends is warm to enthusiasm."

Mr. THOMAS BALLANTYNE, M. P. P. for South Perth, and a particularly intimate friend of Mr. BLAKE, who has just returned from a business trip to London, spent considerable time in the company of the great Canadian Liberal. From Mr. BALLANTYNE it is learned that Mr. BLAKE's health has not even yet been fully restored by his long respite from labor in Canada and his many changes of scene and association in Europe. He is still troubled by insomnia or sleeplessness, though not nearly to so severe a degree as when he left our shores. Autumn, we hope, will see him once more "at home" and in full vigor. The honorable gentleman conversed enthusiastically on Canadian politics, on which he keeps himself *au courant*, watching every move and noting every utterance, and he was warm in commendation of the signal service rendered to the country by the able leaders and supporters of the Liberal party during the session which has just been brought to a close. It is evident that those services are much appreciated by Mr. BLAKE, who was rejoiced to see the banner so well upheld during his enforced absence.

In the course of a few weeks now the honorable gentleman will return to the land of his nativity, with health restored and able once more to give the country the benefit of his commanding talents and experience, as well as the impressions he has formed whilst sojourning for many months in Britain and on the continent. All classes will join in tendering him a cordial welcome. He is a man of whom any nation might justly feel proud. It is to be hoped that his health will hereafter continue to be such as will enable him to play an important part in shaping the destinies of this young Dominion.

THE C. P. R. BONDS.

A London cablegram of last Thursday announces that the Messrs. BARING Brothers & Co. would on the following day invite applications for £3,093,700 Canadian Pacific Land Grant Bonds or stock bearing 3½ per cent. interest, which interest is unconditionally guaranteed by the Dominion Government and the principal secured by a mortgage to trustees of the whole of the land grant of the Company, consisting of 14,934,230 acres, which is free from all liabilities, except in respect to the old land grant bonds amounting to about $230,000. The Dominion Minister of the Interior, with two others, approved of by the Dominion Government, will act as trustees. The prospectus states that the Company's sales for the past year averaged $3.39½ per acre, and it is believed that the land sales will suffice shortly to cover the new issue when by agreement the bonds become Dominion Government bonds both as regards principal and interest. The price of issue is 95. The stock is already at 2 to 2½ premium. Experienced financiers expect that the public will follow the market lead. The issue is of special interest as showing the conditions which the Dominion Government will have to treat with when they bring out their new loan.

Already the development of Russian oil wells is telling on American exports of petroleum, the total exports last year showing a falling off of 10,000,000 gallons. Northern Canada is destined to be one of the principal sources of supply of petroleum in the world's market, not this year, nor the next, but in the near future, as tests are made and communications are opened up.

In a late issue of the Toronto Week there appears a very pleasing and by no means unduly favorable pen picture of the Canadian Liberal leader, Hon. WILFRED LAURIER. As an orator he is admittedly without a peer in Canada and deserves all that Mr. Edgar has said in his praise, and, as a parliamentary leader, he is steadily gaining in general estimation. He is a lovable, likeable gentleman. It is a treat to listen to his silvery tongue and its eloquence. When at his best he electrifies his hearers with his poetry and sentiment. He is verily entitled to the high position accorded him—that of being Canada's most gifted orator.

Sweden has followed Germany in finding excuses for doing its best to exclude American pork by means of a duty so high as to be almost prohibitory. It appears that Sweden claims to have the tonnage duty on its vessels in the United States reduced under some old treaty stipulations, which it does not get, and the high pork duty is thought to favor of retaliation. Be that as it may, it is a real and unpleasant fact.

The estimates of the Sault Ste. Marie canal are going up apace; they have already reached $2,800,000 for a 16 foot canal and $3,800,000 for a 20 foot canal. And these are confessedly not reliable; for the government has promised not to begin the work till an accurate survey has been made. It would not be surprising if the cost were to run up to four or five millions. In this state of matters the government may well pause till it is tolerably sure of its ground.

When it is considered how much money Great Britain spends on her army and navy every year, it is surprising to hear that she is pronounced by experts to be in a defenceless condition. Lord Wolseley declared that if an enemy one hundred thousand strong once effected a landing in England, the whole country would be at its mercy. Yet England spends every year the immense sum of $165,000,000 for national defence—$65,000,000 on the navy and $100,000,000 on the army.

Canada, observes the San Francisco Examiner, has a high protective tariff, but it fails to keep up the price of labor. The influx of population from Europe tends to reduce wages in the Dominion just as the influx of French Canadians into New England lowers the pay of factory operatives in Massachusetts and Rhode Island. The labor unions of Ontario and Western Canada have petitioned the Dominion Government to stop immigration, as was done in Queensland, but the Canadian petition was disregarded by the authorities. Our high tariff contemporaries should make a note of this point.

The cable news from Berlin indicates that the health of the Emperor of Germany continues to improve and those who love him are beginning tremblingly to hope for his recovery. Previous to this his periods of ease were short and he seemed to be continuously sinking lower and lower. He has this last time rallied wonderfully, and from all that can be learned he keeps what he has gained. No one as yet ventures to speak confidently of his recovery. The fear that the favorable symptoms are delusive and may be transitory prevents even the most sanguine from placing too much confidence in them, but every day that he continues better and any advance that he makes, no matter how slight, gives ground for cherishing the hope that this man may, after all, be spared to do good work not only for the great nation over which he is called to rule, but for the whole world.

The necessity of the government supplying the volunteer force with reliable ammunition is apparent to all who take the least interest in matters affecting the militia. It is not possible that so many complaints regarding the quality of the cartridges could have been made unless there were some ground for them. During the session of the Dominion Parliament, Sir Adolphe Caron commented on the complaints that had reached him regarding the quality of the ammunition and gave assurance that the cause had been overcome. His object is to have not only the ammunition but the clothing required by the Canadian volunteer force manufactured in the country. The letter written by Major Bond, of Montreal, who spoke on the subject some time ago, shows that action is needed, if those who constitute the active militia are not to be provoked into quitting it in despair. Major Prior, of this city, also advocated greater care and attention to the requirements of the service. So much time and money is contributed by officers and men to the country that the least the Militia Department can do is to see that proper appliances and reliable ammunition are provided for carrying on their work.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of tubercle germs into the system and when these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the head, causing catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief. *

The Appetite,

May be increased, the Digestive organs strengthened, and the bowels regulated, by taking Ayer's Pills. These Pills are purely vegetable in their composition. They contain neither calomel nor any other dangerous drug, and may be taken with perfect safety by persons of all ages.

I was a great sufferer from Dyspepsia and Constipation. I had no appetite, and was constantly afflicted with Headache and Dizziness. I consulted our family doctor, who prescribed for me, at various times, without affording more than temporary relief. I finally commenced taking Ayer's Pills. In a short time my digestion and appetite

IMPROVED

my bowels were regulated, and, by the time I finished two boxes of these Pills my tendency to headaches had disappeared, and I became strong and well.—Darius M. Logan, Wilmington, Del.

I was troubled, for over a year, with Loss of Appetite, and General Debility. I commenced taking Ayer's Pills, and, before finishing half a box of this medicine, my appetite and strength were restored.—C. O. Clark, Danbury, Conn.

Ayer's Pills are the best medicine known to me for regulating the bowels, and for all diseases caused by a disordered Stomach and Liver. I suffered for over three years with Headache, Indigestion, and Constipation. I had no appetite, and was weak and nervous most of the time.

BY USING

three boxes of Ayer's Pills, and at the same time dieting myself, I was completely cured. My digestive organs are now in good order, and I am in perfect health.—P. Lockwood, Topeka, Kans.

Ayer's Pills have benefited me wonderfully. For months I suffered from Indigestion and Headache, was restless at night, and had a bad taste in my mouth every morning. After taking one box of Ayer's Pills, all these troubles disappeared, my food digested well, and my sleep was refreshing.—Henry C. Hemmenway, Rockport, Mass.

I was cured of the Piles by the use of Ayer's Pills. They not only relieved me of that painful disorder, but give me increased vigor, and restored my health.—John Lazarus, St. John, N. B. ††

The St. Paul *Pioneer Press* a few days ago stated that Mr. T. F. Oakes, vice-president and general manager of the Northern Pacific road, returned yesterday from New York, where he has been for the past six weeks. He says that the following new rolling stock has been ordered by the Northern Pacific company: For delivery in 1888, 50 heavy locomotives for freight service, 500 stock cars, 500 coal cars, 10 first-class passenger coaches, 6 baggage and mail cars, and 50 furniture cars. For delivery in 1889, 1,000 box cars, 25 freight locomotives and 500 coal cars.

SKILLFUL TREATMENT.

What Three Happy Souls Have to Say for Themselves.

DRS. DARRIN, Dear Sirs:—You may publish my name among those cured by you. I have been a sufferer from asthma for over 16 years. The paroxisms were more or less constant at all times and so severe as to not be able to do my work nor anything. I tried many doctors and all kinds of remedies but to no avail, until I placed myself under your electro-magnetic, and now after a month of your skillful treatment I am most entirely cured of my trouble. You may refer to me at 1934 E street, Tacoma, W. T.

JULIEN ROSS.

CATARRH AND LUNG TROUBLE.

DRS. DARRIN—Dear Sirs:—I have been a sufferer from catarrh for ten years. It got so bad last fall that I was declining into consumption and did not expect hardly to live the winter through. I finally went under your electro magnetic treatment and now as a result of your skillful and scientific treatment I am most entirely cured of my lung trouble and catarrh, and have gained in flesh and strength, and have improved in every way. I gladly recommend any one who may need your services, and can be referred to at Duwamish, King Co., W. T.

FRANK DONOVAN.

CATARRH AND RHEUMATISM.

Mr. Editor, Dear Sir:—I have been troubled with a very bad and offensive catarrh for ever since I was a child. I treated with a physician 10 years ago for it, but derived no benefit. Having heard of the wonderful cures of Drs. Darrin I placed myself under their Electro-Magnetic treatment. Now after a thorough four weeks' treatment I am almost entirely cured of my troubles. Rheumatism does not pain nor cripple me as it did. Nor the catarrh with its disagreeableness etc., and I cheerfully recommend the suffering humanity to their mode of treatment, which has proved decidedly beneficial in my case and others that I know of. I can gladly be referred to at 2613 Third street, Seattle, W. T.

HARVEY MOSS.

OFFICE HOURS AND PLACE OF BUSINESS.

The Drs. Darrin are located at the International Hotel, Cherry street, Seattle, W. T. Consultation free. They will under no circumstances take a case that they are positive that they cannot cure or benefit. Charges are reasonable and the poor treated free from 9 to 10 a. m. Tuesdays and Saturdays.

Office hours, from 10 a. m. to 5 p. m., evenings 7 to 8; Sundays 10 to 12.

They cure permanently all diseases of the genito-urinary organs and make a specialty of deafness and catarrh, and also treat successfully all diseases of the nose and throat, eye and ear, as well as all acute and chronic diseases of whatever nature, if curable. No cases taken if not.

Most cases can receive home treatment after a visit to the doctors' office.

Inquiries answered and circulars sent free.

(The Drs. Darrin also have a branch office at 235 Fifth Street, Portland, Or., where any in that vicinity can consult them.)

—Mr. H. W. Seton-Karr wishes the TIMES to correct that portion in its yesterday's issue which referred to the Hudson's Bay Company in the item relating to his travels in the great wonderland of the far north; he claims that the purport of the remarks were entirely without foundation. In justice to that gentleman we cheerfully make the correction desired.

—Neither mind nor body can act healthfully, if the blood is vitiated. Cleanse the vital current from impurities by the use of Ayer's Sarsaparilla. This remedy purifies the blood, recruits the wasted energies, and restores health to the debilitated system. *

—Last Tuesday an advertisement was inserted in THE TIMES by a young Scotchman for a situation on a farm. The following morning he received several applications for his services. Every day since letters are reaching him from all points offering him a position. It pays to advertise in THE TIMES—the people's paper—which circulates every where throughout the city, the Island and the Province.

—The Canadian Pacific Railway have commenced building at their works in Hochelaga thirty Mogul engines. These powerful locomotives are chiefly for use on steep grades and in the mountains. Their pistons are eighteen inches in diameter with twenty six inch stroke, and the boilers will bear a pressure of 160 to 180 lbs. and are double rivetted.

—On Thursday last the harbor of Vancouver presented a busy scene, there being no less than eight large sailing vessels anchored in the stream and at the wharves. In addition to these there were three large steamers, the Umatilla, Yosemite and Premier, and the numerous tugs and little steamers usually in the harbor. Were such a sight visible in either Seattle or Tacoma the newspapers there would issue a six-triple edition and at once claim that in a few months the rival burghs would attain the dimensions of New York or Philadelphia. Vancouver is modest and says little about this, to that place an ordinary event.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 35 doses, 35 cents. mr 21 3m.

Mr. J. W. Mackay furnished about $75,000 in weight of silver, and paid $120,000 for the work on his dinner service, which thus represents $195,000.

"PROFESSOR" MENZIES.

An Investigation to be Held on Monday Next.

In compliance with the request of Chief Bloomfield, the police committee will hold an "investigation" on Monday next at 8 p.m. We confess that we are at sea as to who is to be "investigated." From the tenor of the Chief's letter one would infer that the complaint was against Revs. Starr and Frazer and Mr. Gardner. Chief Bloomfield's requests: (1) that the above gentlemen be communicated with as to whether they reported the facts to the police or called their assistance; (2) their reasons for not doing so; (3) that an inquiry into the conduct of the police be made. We are under the impression that Mr. Bloomfield has made a mistake in calling for an investigation of that character, for it must be known to him that the gentlemen named are not responsible to the police or the police committee, and that if there is any attempt to carry out the second request, with the view of throwing blame upon them, it may be discovered when too late that the engineer has been hoisted with his own petard. The investigation will be, as a matter of course, with open doors, as no hole-in-the-corner inquiry will be recognized by any of the parties concerned in the exposure. The whole facts of the case, as far as the investigation is concerned, may be reduced to a nutshell. If Menzies did not commit a crime of which the chief could take cognizance, there is no need of any investigation; if he was guilty of crime, he ought to have been arrested. However, as there is to be an investigation we will await developments.

POLICE COURT NOTES.

[Before Hon. A. N. Richards, Q.C.]

John Dicson, on remand for being drunk. Fined $5 and costs.

Johnny, an Indian, charged with being intoxicated. Fined $5 or imprisonment for one week.

A woman charged with insanity was remanded for medical examination.

Inland Revenue.

The following are the collections of inland revenue for the month of May: Licenses, $25; tobacco, $1,365.80; cigars, $990; spirits, $3,941.06; malt, $1,474.52. Total, $7,796.38.

Electric Light.

The machinery for lighting the dry dock in Esquimalt with electricity arrived on the steamer Rithet last night. Work on a vessel can be proceeded with night and day after the electric light plant has been placed in position.

Mineral Claim.

Messrs. H. Munn and W. McDowell staked off a mineral claim on Moresby Island yesterday morning. The new mine is supposed to be a continuation of the ledge discovered on Salt Spring Island by Mr. Brethour. The latter is showing every indication of being very rich.

The Tug Pioneer

Sailed for Puget Sound this morning. At high tide last evening the steamer was pulled off the rocks by the tug Pilot. Capt. Smith is justly proud of his steam tug, which is an iron vessel and one of the fastest on the Sound. Her engines were exhibited at the Centennial in Philadelphia, for which a premium was granted.

A Wedding Tour.

It is reported that Mr. Frederick Shakespeare will not travel alone on his trip to Kansas City. The marriage ceremony will take place in Portland, Oregon, where the young lady has resided for some time.

Mr. Shakespeare will be married in Portland this evening to Miss M. Rüdel. THE TIMES wishes Mr. and Msr. Shakespeare a pleasant journey through life.

Outgoing Passengers.

The steamer Umatilla sailed for San Francisco at 1 o'clock this afternoon with the following passengers: J N Paton, N Buchard, T B Godfrey, W Allen and wife, J W Speed, Miss E Bonner, Miss Ida Wallace, C M Page, T Kierman and wife, T E Marsh, C L Thorn, Mrs J Dwyer, Mrs E Mohun, Miss Kelly, Mrs S L Kelly, A Gibson and fifteen in the steerage.

Fleet Hosemen.

The Victoria hose-team, consisting of L G Burns, Captain; F Hinds, Geo Shade, F Gouge, W Deasy, A D Elliott, J Manson, H Levi, C Palmer, H McDowell, T Hodges and W Leadingham were at practice last night on Yates street. They ran 100 yards with a heavy service cart carrying 300 feet of hose, connected to the hydrant, laid 50 feet of hose, uncoupled, placed on a pipe and had water through in the short space of 21 seconds.

The Menzies Case.

The Victoria *Star*, commenting on the Menzies affair, says "the expose made by THE TIMES of "Prof." Menzies has the true journalistic ring about it. The public look to the press to unearth villainy and correct abuses as well as giving news, and when villainy is unearthed and the rascals exposed in their true colors that section of the press that has been doing its proper duty is entitled to praise. THE TIMES has received from all right-thinking citizens words of commendation. Let the good work go on."

Death at Saanich.

Miss White, a native of P. E. I., aged 42 years, died at Mr. Brooks' residence, South Saanich, on Tuesday last. The lady arrived from New Brunswick about a year ago, suffering from consumption, and has been confined to her room ever since. The funeral took place on Friday afternoon. A large number of residents in the locality attended the funeral. Services at the Church and cemetery were conducted by Rev. Mr. Gregory. The pall-bearers were J. Slugget, G. Slugget, Geo. Stelly, Geo. Mitchell, Mr. Fraser and Mr. Brown.

VICTORIA MACHINERY DEPOT.

One of the Industries of Victoria—A Valuable Acquisition.

The Victoria Machinery Depot, conveniently situated at the head of the harbor, is a comparatively new industry in our city. It is owned by Messrs. Spratt & Gray, Consulting Engineers and Draughtsmen, and consists of four two-storey frame buildings, with boiler house attached to one of them. Two of them face on Work street and two on Victoria Harbor, with wharf, and are used as machine works and a slip for docking small steamers. The works have been fully employed since starting last fall, doing new work and repairs, among which may be mentioned the compounding of the engines of steamer Muriel, which proved a perfect success, fully realizing the expectations in the saving of fuel and increase of power. They have just completed a small saw mill under the directions of Mr. Jas. Tallyard, mining engineer, made as light as is consistent with strength, to be packed on mules' backs into the Rock Creek mines and used for sawing lumber for flumes. They are also putting the machinery in two small tug boats to be used for this season's catch of salmon and are preparing plans for a composite tug with galvanized steel frames and triple expansion engines to be imported from Scotland, and have the planking and housework done in Victoria. This will be the first of its kind used in the Province and will be a model of lightness combined with strength and power, and at the same time be very economical in fuel. Besides doing new work and repairing they also have agencies for nearly all kinds of machinery and keep in stock a supply of brass goods, iron pipe, fittings, steam gauges, injectors, steam pumps, rubber packing and hose, "Calvoline" cylinder and machine oil, enamelled signs, etc. The firm is one of the most reliable on the coast, and the managing partner, Mr. Andrew Gray, besides being practically conversant with all the details of machine manufacturing, is a thorough business man. With such efficient direction the business is destined to grow to very large proportions.

Marine Notes.

The ship John R. Brown, 1473 tons, loads coal at Nanaimo, for San Francisco.

Steamer Batavia sailed from Yokohama on May 26th.

Ship T. F. Oaks sailed from San Francisco for Nanaimo on Tuesday last.

Bolivian bark Don Carlos, 694 tons, has been chartered to load lumber at Chemainus to Australia.

The bark Bella Vista, which was engaged in raising the Arabella, was towed out of the harbor yesterday afternoon.

The schooner Silva Handy, chartered by the Omilax Gold and Silver Mining Company of San Francisco, sailed from Port Townsend for Golovine Bay on the northern coast of Alaska. She took a number of men who will work the company's mines near the bay.

Masonry in Vancouver.

A new Masonic lodge has been organized in Vancouver which will be known as Cascade Lodge No. 12, A. F. and A. M., G. R., B. C. Following are the officers: W. Bro. Downie, W. M.; Bros. J. W. Home, S. W.; L. R. Johnson, J. W.; W. F. Salsbury, Treas.; J. W. Gunn, Sec. It is supposed the installation will take place about the 21st inst. There are now two Masonic lodges in the city, Mount Hermon, No. 7, the senior, and Cascade, No. 12, the one just formed. In order to accommodate the increasing membership the upper flat of the Springer and Van Bramer block at the corner of Cambie and Cordova streets has been secured and will be fitted up in the best style as a lodge room for both lodges. The formation of a Royal Arch Chapter in the terminal city is also spoken of as the order is growing so rapidly.

Seeley to Row Stevenson.

The Portland *News* of last Wednesday says: J. C. Steeley, the well-known oarsman of Victoria, B.C., but now a resident of this city, received a dispatch yesterday which stated that L. Stevenson, the oarsman of San Francisco, will leave the Bay city, June 4th, for Portland. He will row Mr. Steeley a shell race on or about the 20th of June and to take place a short distance from Portland on the Willamette river. Mr. Seeley will go into training shortly, so as to be in good trim, as Mr. Stevenson is a good one with the sculls.

Vancouver's Smelting Works.

The ground selected by the Vancouver Smelting Works Company, lying between the railway track and the inlet, on lot 183, has been paid for in full. The terms of the agreement did not call for the payment in full for some months yet to come, but desiring to begin the work on unencumbered ground the company deemed it prudent to pay off all liabilities. The gentleman who will superintend the construction of the smelter left England on the 19th ultimo and may therefore be expected here within a few days.

At Beacon Hill.

There was a large crowd at the hill today to witness the games. The baseball match between James Bay and the Amities, at 4 o'clock, stood 9 for the former to 5 for the latter, five innings having been played.

The cricket match between H. M. fleet and Victoria, stood 41 for fleet to 118 for Victoria. Sinclair for Victoria made 48 runs, and Clinton on the opposite side 36 and not out.

A Tiny Ocean Steamer.

The Morning Star, says the Boston *Transcript*, is the smallest steamer which has ever made the run between England and the Cape. She was designed by her owner, Captain R. Duncan, of London, and was built at Leith. She is twenty-six tons, yacht measurement, is of teak, copper fastened, and is classed A1. Her length is 50 feet between perpendiculars, over all 56 feet, with 11 feet 2 inches depth of hold.

Look at my face and my hands—not a pimple,
Such as you saw there some time ago,
See my fresh cheeks, and I'm getting a dimple,
I don't look at all like I used to, I know.
My face was all blotches—complexion like tallow;
No wonder they thought me and called me a fright;
No one need have pimples and skin gray and sallow,
If she'll take what I took, every morn, noon, and night.

I asked the delighted young woman what she referred to, and she answered, Dr. Pierce's Golden Medical Discovery. It is the best beautifier in the world, because it purifies the blood, and pure blood gives good health, and good health is always beautiful.

The Onderdonk Section.

Messrs. C. Robinson, Q. C., and B. B. Osler, Q.C., for the government, and Geo. M. Clark and Geo. T. Blackstock, Q. C., had a conference in Ottawa on the 25th May relative to the proceedure to be followed at the coming arbitration between the government and the C. P. R. over the building of the Onderdonk section. It was agreed that the arbitrators should meet at Vancouver on June 26th, for the purpose of taking evidence.

A Capital Arrangement.

The Canadian Pacific Railway has made arrangements whereby tourists holding Northern Pacific return tickets can have the return portion exchanged for those reading via Canadian Pacific, by applying to Robert Irving, C. P. R. office, Government street. *

Vancouver's Customs Returns.

For the month of May the amount of duties collected at Vancouver was $5,850.11; Chinese revenue $3,163.50, minor revenue $6,054, a total of $8,574.15. The exports were $42,517. The inland revenue collections for the district amounted to $598.88.

The Salmon Trade.

From San Francisco and Portland comes the report that the salmon run calls for no comment. It is about unchanged and quite spasmodic. Shipments are steadily increasing and those eastward this month will show a quite respectable total. The markets are slow but firmly held, no new transactions in Columbia brands being reported. English buyers have recently secured not a little Alaskan, it is said, at $1 35 at San Francisco. Australian buyers hold contracts for Fraser river fish, some being recent business. The Chicago circulars of the J. K. Armsby Co., of May 22, says: "The salmon situation is unchanged. Reports from the Columbia river are of a very discouraging nature. The run thus far has been light and the probabilities are that the pack will not begin to equal that of last year. A large packer on the Columbia river writes us as follows: 'Fishing the last few days has dropped off from last season—two fish per boat for the number of boats reporting. You must not forget that there are eleven idle canneries, and that if we make an equal pack with last season, each cannery that is now packing, will be compelled to put up one-half more than they did last year. This will be an impossibility as they cannot get the fishermen and they cannot get the Chinamen. Last year at this time, the writer had thirteen Chinamen filling cans; this year there are five. I have offered a bonus for Chinamen, but cannot get them. We have wire advices to-day which report very light run and a great scarcity of fish on the Columbia river during the past week, yesterday's fishing averaging only five fish per boat, a falling off of more than one-half. We are also advised that large sales of Alaska salmon to the English market at full prices have been made, and that further large transactions are about consummated. These sales, together with the discouraging prospects on the Columbia river, is strengthening the market on Alaska salmon, and higher prices are predicted." The entire expected pack of the Karluk (Alaska) Packing Company, amounting to 50,000 cases, was sold last week in San Francisco for export to Liverpool at $1 45. This is a stiff price and beyond what the market has been generally quoted.

The Panama Canal.

Mr. Melton Prior whilst in San Francisco a few days ago in discussing the outlet for the Panama canal said: "Feel confident DeLesseps will complete it, and that without allowing the work to fall into the hands of the government. I am willing to wager that the DeLesseps company will have the canal completed before 1890—that is if a European war does not interrupt. They have done far more work there than they are credited with, notwithstanding that millions of money have been wasted in extravagance and in lavish expenditures for machinery, which lies rusting and going to ruin in great quantities. In my opinion, all your American alleged skepticism of DeLesseps's ability to finish the canal, and even your Nicaragua project, is simply a method of bearing DeLesseps's stock in order that the Panama canal may eventually fall into American control.
